The Red Man's Thanksgiving

How Reservation Indians Enjoy the Day.
A Pony Smoke Popular Killing Their Own Meat

INTEREST in Thanksgiving day and its observance is just as intense these days among the reservation Indians as in college towns where great football games are scheduled to occur. Especially is this true in the southwest, where the Indians have had an opportunity to become thoroughly civilized of late years. The white people find no more enjoyment in this day of universal cheer than do these same dusky Redskins.

It is a day of feasting, playing and gambling, with a big dance at night. Such sport only comes once a year to them nowadays, when they have had to forsake the scalping knife for the plow. Their wild nature revolted at the idea of work, and it has been with much difficulty that the government agents have made farmers out of the young braves. A day of rest and amusement is considered good for their better nature, and the government authorities are willing that Thanksgiving day shall become a festival time for the reservation wards of the nation.

The Osages hold a big feast at Pawhuska, their capital city. All members of the tribe are invited to take part in the festivities. At the beginning and end of each meal, and there are many, the aged missionary who lives among them is invited to deliver a short prayer, thanking the Great Spirit for the good things which the agent has sent them. The food is cooked by the squaws, and, while it could be prepared in a much cleaner and more tasteful manner, the cooking is an improvement over that of a few years ago.

The Apaches and Cheyennes are in the habit of holding a pony smoke. Often the Osages indulge in this expensive festival. A pony smoke is a friendly meeting of two tribes and is especially appropriate for the occasion. The tribe giving the smoke is supposed to bear all the expenses. They provide

Thousands Have Kidney Trouble and Never Suspect it.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys. If it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What To Do.

There is no effort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y.

BEGINNING OF END

Russian Government Can No Longer Put Trust In Its Soldiers.

FIRST OPEN REVOLT

Mutiny of An Entire Regiment of Troops Follows Successful Revolt of Sailors at Sebastopol.

No Attempt Is Made In Government Circles to Disguise Seriousness of This Latest Crisis.

St. Petersburg, Nov. 27.—The successful mutiny of sailors at Sebastopol, accompanied by the first open revolt of an entire regiment of troops, has created the greatest alarm in government circles, and no attempt is made to disguise the seriousness of this latest crisis.

The army is the last prop of the government. Mutiny is contagious and the epidemic of revolt which has attacked in turn practically all the units of the navy from Vladivostok to Cronstadt, it is now feared, is destined similarly to spread throughout the army.

Ugly reports have been repeatedly circulated of sedition among the soldiers in Manchuria, and it was specifically reported a week ago that General Linevitch had to put down a mutiny with considerable bloodshed and that subsequently he executed forty-two officers. No confirmation of this report was obtainable, but whether it be true or not, the morale of the troops on garrison duty in Russia has certainly everywhere been shaken by the revolutionary propaganda, and the fidelity of the individual units, even of the guard regiments, is questioned.

During the disorders following the promulgation of the imperial manifesto, some of the provincial governors refrained from testing the loyalty of the troops, preferring to rely on the Cossacks, who showed no signs of wavering. Count Witte called an extraordinary session of the cabinet Sunday afternoon and another session was held last night to consider the situation. Grand Duke Nicholas Nicholasievitch, president of the council of national defense and commander of the imperial guard, was present, and this fact caused a revival of the rumor that the grand duke might immediately be appointed dictator; but it can be taken for granted that this step has not been decided upon, as it is plain that a dictatorship at the present juncture would be sure to precipitate an immediate armed revolution. Nevertheless Count Witte's government, if it continues its present policy, in the opinion of many students of the situation, will be powerless to cope with the increasing problems by which it is constantly confronted. The revolutionary tide subsides only to mount higher, and the extreme elements, convinced that the government must fall, are raising their demands proportionately.

The Slovo pertinently pointed out the inconsistency of the demand of the revolutionaries for the abolition of the death penalty, saying: "They base their demand upon humanitarian grounds, yet they closed the drug stores, which furnished medicines to the sick and stopped the railroads, which were carrying relief to millions suffering from famine."

The Russ hails the mutiny at Sebastopol as the beginning of the end and calls upon the zemstvo congress to quit talking and to come to St. Petersburg in the name of the country and ask Count Witte what he proposes to do to tranquilize the people, and if the reply be unsatisfactory, to take the only step which remains, namely, the formation of a provisional government.

M. Souvorin, editor of the Novoe Vremya, likens the situation to a hydra-headed monster which, no sooner than one of its heads is cut off, grows two in its place, adding that "unfortunately there is no Hercules in sight."

The only immediate measure the government is known to have decided upon is the enactment of a drastic law to punish persons guilty of inciting strikes, but this would only be likely to inflame the socialists. The physical impossibility of holding elections in many provinces owing to the prevalence of agrarian disorders, and the generally disturbed conditions, involving the postponement of the meeting of the duma, which is sure to be misinterpreted, constitutes another danger and adds weight to the arguments of those who are urging on Count Witte that the only chance of restoring comparative tranquillity is to induce the emperor to sign a constitution guaranteeing the liberties promised in the manifesto. They declare that the choice lies between that and a dictatorship.

HOW IT WAS DONE

Mutinous Sailors Profit by Mistake at Cronstadt.

Sebastopol, Nov. 27.—The long-expected mutiny of sailors, who have been on the verge of revolt for months, has come and Russia's stronghold on the Black sea is in danger of falling completely into their hands. The situation is very critical. All the shore equipages, numbering 4,000 men, are

in open rebellion, having driven away or taken their officers prisoners. The 1st regiment of Cronstadt, the only other regiment in the city, received the mutineers with cheers, but thus far it remains loyal. Some of the artillerymen have also joined the men in revolt.

The Euxine fleet is standing in the offing and is still obeying the orders of Vice Admiral Choukhin, but the crews are disaffected and there is grave doubt whether they can be restrained from joining the mutineers and greater doubt that they will fire upon them.

The sailors with the aid of the social democrat leaders, having learned a lesson from the less prudent mutineers at Cronstadt, elected officers and decided upon a program, pledging themselves not only not to pillage, kill, or drink vodka, but to take measures to prevent rowdiness. They were joined by the workmen of the port and in complete order, the sailors carrying the banner of St. George and the workmen red flags, marched to the barracks of the 1st regiment. The officers of the regiment threatened to fire upon the mutineers, but General Neplueff, a colonel and five other officers surrendered and were sent under escort to the marine prison. Being reinforced by the rank and file of the entire regiment, the mutineers and workmen formed a procession composed of 10,000 men and marched through the city. The sailors thus far have comported themselves well. The city is panic-stricken and the inhabitants are fleeing. When the mutineers stopped the trains in order to prevent the arrival of troops from Simero, Poland, many persons left on foot and in cabs, wagons or any other kind of vehicle available.

The authorities have posted artillery on the boulevard which is the sole avenue of communication between the city and the stronghold of the mutineers, and on the Balaklava road, the only other egress from Admiralty Point. They have the mutineers completely hemmed in, but are awaiting the arrival of the troops from Simferopol before attempting to retake the barracks. The mutineers apparently are in a state of excellent discipline. They have constructed barricades, have placed a guard at the aqueduct which supplies the barracks and have thrown out pickets, which take regular turns at guard duty. They declared that they had risen because their commanders had withheld concessions promised by the emperor and that they are ready to hold out until these are put into effect.

Killed in Auto Wreck.

New York, Nov. 27.—Mrs. Francis Harrison, wife of ex-Congressman Harrison, was instantly killed in an automobile accident in Long Island City. The machine became uncontrollable on a steep hill on Thompson avenue, plunged to the side of the road and turned over. Mrs. Harrison's neck was broken. Lawrence I. Scott and his wife, of San Francisco, who were riding with Mrs. Harrison in the automobile, were injured. Mrs. Harrison was the daughter of the late Charles A. Crocker of San Francisco. Mr. Harrison is the son of Mrs. Burton Harrison, the author.

STAGGERING FACTS

Secretary Wilson Gives the People Something to Think Over.

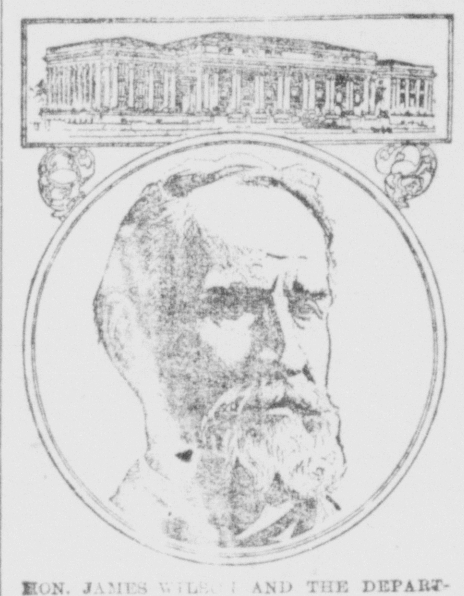

'DREAMS OF WEALTH'

Could Hardly Equal the Total Production of the Farms of This Country During Past Year.

The Highest Amount Ever Attained In This or Any Other Country \$6,415,000,000.

Washington, Nov. 27.—"Wealth production on the farms of the United States in 1905 reached the highest amount ever attained in this or any other country—\$6,415,000,000."

In the first annual report of his third term, Secretary of Agriculture Wilson presents an array of figures and statements representing the products and profits of the farmers of the country, which he admits "dreams of

HON. JAMES WILSON, SECRETARY OF AGRICULTURE.

wealth production could hardly equal." Four crops make new high records as to value, corn, hay, wheat and rice, although in amount of production the corn crop is the only one that exceeds previous yields. In every crop the general level of production was high and that of prices still higher.

Besides the enormous yield of wheat, the secretary's estimates that the farms of the country have increased in value during the past five years to a present aggregate of \$6,133,000,000. "Every sunset during the past five years," he says, "has registered an increase of \$3,400,000 in the value of the farms of this country."

This increased value, the secretary suggests, is invested better than in bank deposits or even in the gilt-edged bonds of private corporations.

Analyzing the principal crops for the year, the secretary says that corn reached its highest production with 2,708,000,000 bushels, a gain of 42,000,000 over the next lowest year, 1899; hay is second in order of value, although cotton held second place during the two preceding years. The hay crop this year is valued at \$697,000,000. Cotton comes third, with a valuation of \$675,000,000; wheat, \$525,000,000; oats, \$282,000,000; potatoes, \$138,000,000; barley, \$58,000,000; tobacco, \$52,000,000; sugar cane and sugar beets, \$50,000,000; rice, \$13,892,000; dairy products, \$665,000,000, an increase of \$54,000,000 over last year.

"The farmer's hen," the secretary says, "is becoming a worthy companion to his cow. The annual production of eggs is now a score of billions. Poultry products have climbed to a place of more than a half billion dollars in value, so the farmer's hen competes with wheat for precedence."

There are more horses and with a larger aggregate value than ever before, notwithstanding, as the secretary says, they were first threatened by the bicycle and later by the suburban trolley and the automobile. He estimates their value at \$1,200,000,000, or nearly as much as the corn crop, and the value of mules at \$252,000,000.

Although milk cows are increasing in number and value, the report states that other cattle and sheep have for several years been decreasing. There are 17,570,000 milk cows, valued at \$482,000,000. Other cattle are numbered at 43,669,000, with a value of \$552,000,000. Swine number 47,321,000, valued at \$233,255,000. In the aggregate the value of farm animals has increased a few million dollars within the year, and since the census of 1900 have increased 9 per cent.

With this enormous production the secretary says the wants of 83,000,000 people have been supplied with a remaining surplus constituting a generous contribution to other nations. The exported farm products during the fiscal year ending June 30, 1905, had a value of \$827,000,000.

The report concludes: "Should there be no relief from his present position as a wealth producer, three years hence the farmer will find that the farming element, about 35 per cent of the population, has produced an amount of wealth within ten years equal to one-half of the entire national wealth produced in three centuries."

Growth of Relief Fund.

New York, Nov. 27.—The fund for relief of the suffering Hebrews in Russia was increased Sunday by \$50,932, making a total of \$878,511 collected to date.

NOTABLE RECORDS

Two Distinguished Veterans in the Public Service.

Indianapolis, Ind., November 27.—A party leader with a penchant for such matters has figured out that Judge Leander J. Monks of the supreme bench and Judge Black of the appellate court have between them been in the service of the state in some capacity or other for a total of seventy-eight years. No man now at the statehouse served with Judge Black when he drew the warrant for his first salary. In fact, there are probably not half a dozen men around the building who were voters thirty-seven years ago, when he became reporter of the supreme and appellate courts. With the exception of three or four years he has been serving the state in some capacity since then. He is now candidate for renomination. Judge Monks, who is generally regarded as one of the ablest attorneys who ever sat on the supreme court bench, is asking for a third six-year term. When he completes his present term it is said that he will have been in public office of some sort or other for forty-one consecutive years.

The arrest of Colonel "Bill" Huffman of Anderson by United States Marshal Pettit as the result of investigation by the United States civil service commission and the federal grand jury here, has caused a political sensation. Huffman is charged with misdeemeanor in soliciting campaign funds from postal clerks at Goshen, Ind. This is one of the cases unearthed by the civil service commission when it publicly charged Federal Judge F. E. Baker with soliciting funds from the Goshen postal clerks. Colonel Huffman's name has been connected with the matter for some time, and he has known that he has been under the fire of the civil service commission and federal authorities here. It was suspected that an indictment might be returned against him, as it was known among the men closely connected with the Republican state organization last fall that he was one of its agents in collecting funds from the postmasters and their subordinates. Colonel Huffman was assigned to the Thirteenth district, of which he made a tour shortly before election day. Colonel Huffman was permitted to go under a small personal bond. The date for his hearing will be set Dec. 13, which is arraignment day for those indicted by this term's grand jury. It is stated in the indictment that he solicited funds from the clerks on government property, which is contrary to law. Colonel Huffman says he did not talk to the clerks in the office, but it is understood the grand jury was informed to the contrary.

A good story relative to the position of William Jennings Bryan in the last national campaign was related here today. A well-known Indiana Democratic leader who enjoys the Nebraska close friendship with Bryan during a part of the two weeks' trip he made through this state last fall. After they had been out two or three days Bryan said to him: "Perhaps you have noticed that I never refer to Judge Parker as a 'trust-buster.' Without waiting for a reply Bryan continued that he looked upon President Roosevelt as more of a 'trust-buster' than his own party's candidate. "I firmly believe that if President Roosevelt is aroused on the question," he added, "that he will go after the trusts good and hard. I think he is that kind of a man. Frankly, I don't believe that Judge Parker would go after them half as vigorously. That is the reason that I don't refer to him in my speeches as a 'trust-buster.' If any man in my audience should ask me why I am silent on the subject I would have to be honest and tell him that I regard President Roosevelt as more antagonistic to combinations than our own candidate." The party leader who related the incident said that only a few days ago some prominent Populists in his county called at his office and during a discussion of the political situation expressed warm admiration of President Roosevelt's public policy and declared that their party will nominate him for president if the Republicans don't.

Henry W. Marshall of Lafayette, former speaker of the Indiana house of representatives, has mailed letters to 120th district Republicans saying that he is candidate for district chairman to succeed Kit Sills of Monticello. Marshall was credited recently with aspirations to succeed Congressman E. D. Crumpacker, but it is understood that he will not try to go to congress for some time. It is said that Marshall is suitable to Congressman Crumpacker for district chairman, and so far there is no open opposition to him.

Verdict of Acquittal.

Jeffersonville, Ind., Nov. 27.—After deliberating twenty-four hours the jury in the case of the state vs. Lawrence Hubbard returned a verdict of acquittal. Hubbard was charged with the murder of Nelson Jordan on May 30, 1904. The men were attending an entertainment and engaged in a fight, Hubbard using a knife with fatal effect.

Caught Red-Handed.

New York, Nov. 27.—Surprised in the act of breaking into a store in Harlem, five Italians exchanged a fusillade with a policeman, in the course of which one of their number was shot in the eye and mortally wounded. One of the others was captured and the rest made their escape.

Japanese Steamers Collide.

Tokio, Nov. 27.—The steamer Ikuta, bound for the Liao Tung peninsula, collided with the steamer Fukura near Mutsure, not far from Shimonoseki. The Ikuta, which was struck amidships, sank immediately. Most of those on board were saved. Eleven are missing.

Cuba Wants to Know.

Havana, Nov. 27.—It is understood that the Cuban government is communicating with the United States government as to which government is to deal with the Americans in the Isle of Pines in the event of the latter carrying out their alleged threat to assume territorial offices.

FROM BIRTH TO OLD AGE

Life is a constant fight against the dangers of disease, and he holds his own the best who keeps his body and its functions in the best working trim.

There are times in every life when Nature gratefully accepts a little aid. She does not want a whipping up for that inevitably followed by depressing reaction.

In most cases a tonic and alterative properly compounded will afford the required help by promoting digestion, assimilation and reconstruction of tissue and reducing waste of vital nerve forces.

It must not be an alcohol stimulant—just a vegetable tonic. Meeting these needs and conditions Dr. Pierce's Golden Medical Discovery has been in successful use these forty years and has accumulated a record of cures unequalled in the history of medicine. It is composed of non-alcoholic, glyceric extracts of Golden Seal root, Queen's root, Stone root, Black Cherry bark, Bloodroot and Mandrake root, and by special processes perfected by Dr. Pierce, in his own laboratory, so combined in the most exact proportions, and their medicinal properties preserved without the use of alcohol as to render it a safe and effective remedy for use in the family without consulting a doctor. Young or old can take it freely as needed, and now that its composition is published, there is no ground for prejudice against it as a patent medicine or secret medicine. It is neither.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. One "Pellet" is a gentle laxative, and two mild cathartics. Druggists sell them, and nothing is "just as good." Dr. Pierce's great thousand-page Illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound, for 31 stamps.

THE DRINK HABIT

Leads to Inevitable Disaster

"A little will not hurt me" has started thousands of men on "the downward path"—the path that leads to the destruction of all that is manly in man.

The journey is sometimes short—sometimes long—but inevitably leads to disaster.

If some poor, unfortunate victim of this baneful habit of drink—someone who is near and dear to you—has started on this path, lend him your aid. You can help him when he cannot help himself.

White Ribbon Remedy

a lasting cure for the Drink Habit, can be administered without the patient's knowledge in coffee, tea, water or food.

No matter how strong his appetite may be for intoxicants White Ribbon Remedy will gradually cause him to imbibe less and less until finally he will give up their use forever.

Thousands of former drunkards are to-day total abstainers through the instrumentality of a friend and White Ribbon Remedy.

Thousands of women bear witness to the successful cures effected by White Ribbon Remedy.

Physicians and Clergymen in all parts of the country recommend the use of White Ribbon Remedy.

TELLS LIFE'S STORY.

Dad O'Brien Now in Evangelistic Work.

William H. Frazier, the reformed bank robber, who was known in the days of his criminal career as "Dad O'Brien," was here Sunday the guest of Dr. M. F. Gerrish and at night he spoke at the Holiness Christian church. He has undergone a complete reformation and is now a thorough christian man, doing all the good he can in the evangelistic work.

To an interested congregation he told the story of his life and made an effective appeal for right living. Mr. Frazier was once a notorious thief and bank robber and made many rich hauls when leading that sort of life. But he paid the penalty for his wrong doing for he was arrested and convicted a number of times. In all he has served 23 years in prison, though the sum of all his sentences foot up 65 years. But he was lucky enough to be pardoned several times and in other ways to have his sentences cut short.

It was while in prison at Louisville that he was converted and when he was given his liberty about a year ago he went out to lead a different life. He is now endeavoring to do all the good he can and with his sincerity and earnestness of purpose he will surely be able to accomplish a great deal.

Likes Army Life.

EDITOR REPUBLICAN:

Being a reader of your paper I trust you will allow me space to say something of the life of a soldier.

I was born and reared at Medora, and my parents have been subscribers of the REPUBLICAN for the past five years. I enlisted in the United States army September 2, 1905, and am pleased to say that I like soldiering, and am confident in saying that it is a benefit to any young man, as it gives him experience that he could never get on the outside. Of course there are people who do not recognize the soldiers, because, they say, they are rough and have no principle. But they are wrong, for the soldier has principle.

Suppose our country had no soldiers to defend its flag, what would be the consequence in case of an emergency? You know how Russia and our noble country stand today. If the civilians of today would look back to their forefathers, who went to the front and won for us and our country liberty and independence, they would have more sympathy for the soldiers today. I know that the true soldier is honest and patriotic, proud of the flag and the blue. In the event of war we have an excellent company, and not a man would fail to the rear unless a bullet should strike him down. We are supplied with good and substantial food and have an excellent and loving commander.

Respectfully,

LUTHER WORLEY,

THE OLD WAY AND THE NEW

Few Important Facts Which May Prove Helpful.

Thirty years ago old-fashioned cod liver oil had to be forced down a patient's throat. Invalids couldn't take it, and children wouldn't. But the doctors prescribed it, and it had to be taken by force. Yet when enough could be taken into the system it was beneficial, for it has ever been the greatest of all tissue builders and general reconstructors known to medicine.

We are now anxious to have every one know that Vinol is a new form of this very old and valuable remedy, cod liver oil. It contains in a concentrated form all the medicinal elements of cod liver oil, actually taken from fresh cod's livers, but by a new process it is made without oil or grease and it is as delicious to the taste as a fresh orange.

Vinol does not upset the stomach like old-fashioned cod liver oil and emulsion; its strengthening and healing properties are remarkable, and both doctors and patients are delighted with its action.

Many wonderful cures right here in Seymour have been effected by its use, and we ask all of our customers to try Vinol on our guarantee to return money every time it fails to make rich red blood, increase the appetite, cure stomach troubles, give strength and renewed vitality to the aged, run down tired and debilitated, or cure chronic colds, hacking coughs or bronchitis. AN EXCURSION TO CUBA.

Two Indianapolis Teachers Arranging for an Interesting and Attractive Midwinter Outing From

DECEMBER 22 TO JANUARY 2, INCLUSIVE

Before the Spanish-American War, Cuba was no better known to the average American than any other of the many islands adjacent to the continent, but today this island, with its chief city, Havana, is attracting more attention than all the others combined.

Pursuant to many requests, which come to Messrs. Hall & Forsyth, of the Indianapolis High Schools, by persons who had accompanied them on other trips, for an excursion to Cuba, they visited the island in June, and now have every detail arranged for what promises to be the most attractive outing of the season.

The party will leave Indianapolis, Indiana, via the Pennsylvania Lines to Louisville, Ky., thence via the Louisville and Nashville Railway to Mobile, Ala., where they will board the Munson Line Steamship, "Prince George" for Havana, covering an itinerary of over three thousand miles in twelve days; two of which will be consumed in the trip on land, over the beautiful country between Indianapolis to Mobile, and return; four on the ocean and six on the island of Cuba.

The ticket will cost seventy-five dollars, and will cover every expense except meals while in Havana.

A beautiful booklet, containing one hundred and twenty-five pages of information and descriptive matter, is now ready for distribution.

If interested in this trip, write the managers, or W. W. RICHARDSON, Ass't Gen. Pass. Agent, Pennsylvania Lines, Indianapolis, Ind.

J. H. MILLIKEN, Dist. Pass. Agent, L. & N. R. R., Louisville Ky.

TO FAMOUS FLOWER SHOW.

Excursions to Indianapolis over Pennsylvania Lines.

Widespread interest is manifested in this year's Indiana Floral Festival and Chrysanthemum Show in Indianapolis. There will be afternoon and evening concerts by the Indianapolis Military Band. The exhibits are expected to surpass all previous displays. They include unusually fine orchids, said to be the richest representatives of those wonderful flowers. The display of American Beauties alone will be worth going miles to see. A striking new feature will be enormous French Chrysanthemums banked on mossed tables. Thousands of electric lights will illuminate the Exposition. Special low fare excursion tickets to Indianapolis for this event will be sold over Pennsylvania Lines from stations in Indiana November 15th and 16. Further information may be obtained from Pennsylvania Lines ticket agents. For programs of the Festival address Secretary Irwin Bertemann, 241 Massachusetts Avenue, Indianapolis.

Are you lacking in strength and vigor? Are you weak? Are you in pain? Do you feel all run down? The blessing of health and strength comes to all who use Hollister's Rocky Mountain Tea. 35 cents W. F. Peter Drug Co.

Many sufferers from nasal catarrh say they get splendid results by using an atomizer. For their benefit we prepare Ely's Liquid Cream Balm. Except that it is liquid it is in all respects like the healing, helpful, pain-allaying Cream Balm that the public has been familiar with for years. No cocaine nor other dangerous drug in it. The soothing spray relieves at once and cure is certain. All druggists, 75c, including spraying tube or mailed by Ely Bros., 56 Warren Street, New York

READ our advertising columns today. There is information there that you will need before you go down to do your shopping. It pays to keep posted on what the merchants are saying.

SUNDAY morning papers told of two deaths of football players Saturday and many others seriously injured. Yet there are some who see no need of eliminating the rough and dangerous features of the game.

THE Madison Courier wants some one to suggest a name for the new hospital to be built there. Madison people should be able to name the institution now without outside help, but if they can not their neighbors are ready to make suggestions.

D. B. HALL has retired from the Lawrenceburg Press, having sold his half interest in the paper to his partner, E. S. Smashey, who in turn sold a half interest in the business to Harris F. Shaw, a son of Lawrenceburg's postmaster.

THE Thanksgiving season is right upon us and when we stop and reflect we begin to realize that the American people have every reason to observe a national Thanksgiving day. The people of this state and of our own community have an abundance of reasons for which to be thankful. We are a fortunate and favored people. Thanksgiving day should be observed as it was intended. Read again Governor Hanley's Thanksgiving proclamation.

NOT being in possession of all the facts on which the indictment of Col. W. W. Huffman, of Anderson, is based, one can scarcely give an intelligent opinion. But in the collection of campaign funds he was only acting as a sort of agent for the party organization, therefore, why he should be singled out and indicted is hard to understand at this distance. Col. Huffman was not acting for himself and did no more than hundreds of other men of all political parties in Indiana have done at the solicitation of their party organizations.

HAPPY RESULTS.

Have Made Many Seymour Residents Enthusiastic

No wonder scores of Seymour citizens grow enthusiastic. It is enough to make anyone happy to find relief after years of suffering. Public statements like the following are but truthful representations of the daily work done in Seymour by Doan's Kidney Pills.

Capt. Carr, retired veteran of the Civil war, living on north Broadway, says: "I used two boxes of Doan's Kidney Pills for lameness in my back and depressing aching across the loins. The first box which I procured from C. W. Milbous' drug store benefited me so greatly that I bought a second and it removed the backache and banished the disagreeable aching in the top and back of my head. I can with pleasure recommend Doan's Kidney Pills for backache and lumbago for I have proved their merits by my own experience."

For sale by all dealers. Price 50 cents. Foster—Milburn Co., Buffalo, New York sole agents for the United States.

Remember the name—Doan's—and take no other.

Pleasantly Surprised.

Mrs. Ed Scanlon was given a most pleasant surprise Friday night at the home of her daughter, Mrs. E. C. Bollinger, when about fifteen of her friends gathered in remembrance of her fifty first birthday anniversary. The affair was a complete surprise to Mrs. Scanlon, who nevertheless was hostess in a way to make the evening a delightful one to all present. She received several presents from her guests. Refreshments were served.

A Creeping Death.

Blood poison creeps up towards the heart, causing death. J. E. Stearns, Belle Plaine, Minn., writes that a friend dreadfully injured his hand, which swelled up like blood poisoning. Bucklen's Arnica Salve drew out the poison, healed the wound, and saved his life. Best in the world for burns and sores, 25c at W. F. Peter Drug Co.

Court Convenes.

The November term of the Jackson Circuit court convened today with Judge Lewis on the bench and most of lawyers of the county present. Tomorrow the docket will be called and then the work of the term will be fairly under way.

Saved by Dynamite

Sometimes a flaming city is saved by dynamiting space that the fire can't cross. Sometimes, a cough hangs on so long, you feel as if nothing but dynamite would cure it. Z. T. Gray, of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her: so she took Dr. King's New Discovery for Consumption, Coughs and Colds, which eased her cough, gave her sleep, and finally cured her." Strictly scientific cure for bronchitis and La Grippe. At W. F. Peter Drug Co. store, price 50 cents and \$1.00; guaranteed. Trial bottle free.

NEW LOCOMOTIVES

Being Delivered to The B. & O. S. W. Company.

General Superintendent W. H. Brimso, of the B. & O. S. W., and John Hair, superintendent of motive power for the company, went to the transfer yards in Cincinnati last week to look over one of the new 104-ton freight locomotives, which is of a lot of 33 now being delivered to the B. & O. S. W. All of the 33 engines for the freight service are of the consolidation type with the latest appliances for heavy draught and speed combined.

None of the new engines are of the compound type, the road officials having decided after careful tests that the simple engines are preferable as they will perform the same work as the compound and with less coal.

In addition to these 33 new freight locomotives the company has purchased seven new fast and powerful engines of the Atlantic type for passenger use between Cincinnati and St. Louis. This means a big addition to the B. & O. S. W. equipment.

H. S. Dell and J. L. Blair were east bound passengers this morning.

Feed your furnace with a cheap grade of coal and notice how fast the money goes. There is more waste to a ton of poor coal than there is to two tons of high-grade coal, for in poor coal there are always dust, dirt and cinders. It pays to buy good coal even though you may have to pay a little more for it.

You don't have to pay more for good coal when you buy of us, though, Raymond City coal is a high-grade fuel, and the best soft coal mined in the country. We are selling Raymond City soft coal for only \$3.75 per ton. Feed your furnace with Raymond City, and you will save money.

WINTER ECZEMA SKIN HARD AND DRY

Some skin diseases are active in Summer, while others wait until cold weather to manifest themselves. Winter Eczema sleeps in the system through the long hot months, and gives no sign of its presence; but at the coming of Winter the trouble asserts itself and it becomes one of the most painful and distressing of all skin diseases. The blood is filled with poisonous acids which seem to be excited by the cold; and as these are thrown off through the pores and glands, the skin cracks and bleeds, the flesh becomes hot and feverish and the itching intense. The natural oils which keep the skin soft and pliant are dried up by the cold, bleak winds, causing it to become hard and dry, giving it that shiny, leathery appearance, characteristic of the disease. The head, face, hands and feet are the usual points of attack, though other parts of the body may be affected. So painful and distressing is the trouble that the sufferer constantly "doctors" and treats it trying to get relief. Soothing washes, medicated ointments and salves are used, but aside from giving temporary relief they do no good. The cause is poisonous acids in the blood, and these must be removed before a cure can be effected. The only cure for Winter Eczema is S. S. S., the greatest of all blood purifiers. It cleanses the entire blood supply of the acid poisons and sends a fresh, healthy stream to the diseased skin, healing and softening it and curing the painful, itching eruptions. S. S. S. enters the blood and purifies it of all waste and foreign matter, and cures Winter Eczema—or Tetter as it is sometimes called—safely as well as surely; besides it does not contain any harmful mineral to derange or damage any part of the system. TRAGEDY OF THE RAIL

Smashup on a Massachusetts Road Costs Eighteen Lives.

Lincoln, Mass., Nov. 27.—The most disastrous railroad wreck in this state for many years occurred at 8:15 o'clock last night at Baker's Bridge station, a mile and a half west of Lincoln, on the main line of the Fitchburg division of the Boston & Maine railroad. The regular Sunday night express from Boston for Montreal via the Montreal route, crashed into the rear of a local train. Eighteen persons were killed or fatally injured, and many others seriously injured. Many passengers sustained minor cuts, bruises and burns.

The wreck was primarily due to thick fog which apparently obscured signals set by the forward train, which at the time of the disaster was standing in front of Baker's Bridge station. The Montreal train, drawn by two locomotives and consisting of nine cars, crashed into the rear of the local, demolishing the two rear cars.

All of the passengers killed and seriously injured were in these. None of the passengers on the Montreal train was seriously hurt, but the engineer and driver of the leading locomotive were killed.

The wreckage caught fire and some of the passengers were incinerated.

New Evidence Secured.
Annapolis, Md., Nov. 27.—The body of Midshipman James R. Branch, Jr., who died November 7 after a fist fight with Midshipman Minor Meriwether, whose trial by court-martial on charges that include manslaughter, is in progress, was interrupted Sunday and an autopsy was held by a board of naval medical officers, pursuant to orders of the secretary of the navy. The condition of the body was found to be such that those who made the autopsy will be able to answer questions that have arisen during the Meriwether trial as to the condition of Midshipman Branch's heart and other organs prior to the fight.

Powers Ready for Business.
Constantinople, Nov. 27.—The fleet of the allied powers arrived at the island of Mitylene Sunday.

A Broad Insinuation.
Dr. Barrett was a great friend of a brother fellow, Magee, afterward bishop of Raphoe and finally archbishop of Dublin, who was the only person to whom Barrett ever lent money. Magee wanted a loan of \$5 and went to see Barrett in his room, who agreed to make the loan, went into his bedroom and returned with an old stocking full of guineas in his hand. Just as he came into the room the stocking burst and the guineas were scattered on the floor. Magee stooped down to help Barrett pick them up. "Stop, stop, Magee," said he. "Do you see me now? Get up and stand on that table and I'll pick them up." The loan was then made and Magee left him carrying his guineas. A few days afterward he met him and said, "I hope, Barrett, you found your guineas all right?" "Well, do you see me now?" said Barrett. "They were gone, and maybe it rolled into a mouse hole, Magee, and maybe it didn't."

Millionaire's Poor Stomach.
The worn-out stomach of the over-millionaire is often paraded in the public prints as a horrible example of the evils attendant on the possession of great wealth. But millionaires are not the only ones who are afflicted with bad stomachs. The proportion is far greater among the toilers. Dyspepsia and indigestion are rampant among these people, and they suffer far worse tortures than the millionaire unless they avail themselves of a standard medicine like Green's August Flower, which has been a favorite household remedy for over thirty-five years. August Flower rouses the torpid liver, thus creating appetite and insuring perfect digestion. It tones and vitalizes the entire system and makes life worth living, no matter what your stomach troubles. 25c; regular size, 75c. At all druggists.

Head Ache Sometimes?

If so, it will interest you to know that it can be stopped with Dr. Miles' Anti-Pain Pills; and without any bad after-effects, and this without danger of forming a drug habit or having your stomach disarranged. They positively contain no opium, morphine, cocaine, chloral, ether or chloroform in any form. Dr. Miles' Anti-Pain Pills relieve pain, and leave only a sense of relief. The reason for this is explained by the fact that headache comes from tired, irritable, turbulent, over-taxed brain nerves. Anti-Pain Pills soothe and strengthen these nerves, thus removing the cause. They are harmless when taken as directed.

"We use Dr. Miles' Anti-Pain Pills for the cure of headache, and we think that there is nothing that will equal them. They will cure the severest spell of nervous or sick headache in a very few minutes. I am of a nervous temperament, and occasionally have spells when my nerves seem to be completely exhausted, and I tremble so I can scarcely contain myself. At these times I always take the Anti-Pain Pills, and they quiet me right away. It is remarkable what a soothing effect they have upon the nerves."

GAVE UP HIS LIFE

In Saving Lives of Children
Wallace Phillips Is Killed.

TOOK NO HEED TO SELF

Heroic Action of Prominent Business Man at Brazil Has Tragic and Pathetic Ending.

Phillips Saved Two Little Girls From Horrid Death But Is Himself Crushed by Train.

Brazil, Ind., Nov. 27.—In saving the lives of two little girls, Wallace Phillips, a prominent resident of Brazil, lost his own. Phillips had just pushed the girls from in front of a westbound Vandavia passenger train when he was struck and instantly killed. His body was hurled a distance of 100 feet and his head was crushed on a rail. His body was terribly mangled.

While Phillips was crossing the tracks behind a freight train the fast passenger approached. Phillips saw the danger of the little girls, who were looking toward the freight train. They had no chance to escape. With a bound Phillips reached them and pushed them to safety off the track. Before he could recover and clear the track himself, Phillips was struck.

Phillips was thirty-eight years of age. He leaves a widow and three children. He was a lumber dealer and timber buyer and was well to do.

MYSTERIOUS TRAGEDY

Robbery Probable Object of Fatal Assault Near Connersville.

Connersville, Ind., Nov. 27.—Lying in a pool of blood, with his head crushed in and wholly unconscious, was found the body of an unknown man, by Daniel Simpson, a farmer living a mile south of this city, in a barn on the Simpson farm. The man was brought to Connersville as rapidly as possible and placed in a hospital where his wounds were cared for and every effort made to revive the flickering spark of life. Nothing was found about his person with which to identify him.

When found in the barn the man was clad only in a sweater and a pair of corduroy trousers and was bareheaded. On the highway a short distance from the barn was found a hat and a coat. The latter was new and appeared as though it had been torn by someone in a scuffle. Near the place where the coat lay the ground gave evidence that a fierce struggle had occurred. It could also be plainly seen where something had been dragged from the roadway through the gate leading to the barn, and the theory of the officers is that the man was waylaid and robbed and his body was carried into the barn.

Several who went to see the man say they saw him the day before and that on one or two occasions he was seen with a roll of money. He is about twenty-five or thirty years old, about 5 feet 10 inches tall, with light curly hair, a smooth face and a fair complexion.

The body was later identified as that of Elbert Smith of Concord, Pa., who had been working for Frank Eby, a farmer south of the city.

Despondency Overcame Him.

Connersville, Ind., Nov. 27.—Overcome with despondency because of poor health, Peter Leistner, a wealthy farmer living four miles northeast of this city, attempted suicide by cutting his throat with a pocketknife. He was found by his wife, sitting in a chair in the bedroom with the blood streaming from a gaping wound in his neck, and he was unconscious. A physician was called and after working with the unfortunate man he succeeded in reviving him, but he is still in a critical condition from the loss of blood.

Under Federal Charge.

Indianapolis, Nov. 27.—The United States grand jury found a bill against W. W. Huffman of Anderson, the indicted charging him with violating the rules of the civil service. The specific offense of which Colonel Huffman is charged is soliciting campaign assessments from federal officials. A warrant was served on Colonel Huffman, who gave a personal bond for his appearance in the federal court.

Serious Hunting Accident.

Evansville, Ind., Nov. 27.—By the accidental discharge of a shotgun Conrad Flex had his left eye shot out. His face badly torn and one hand shot off. He had been right hunting and it was while putting the gun in the rack after his return home that the accident happened.

Fatal Premature Blast.

Mishawaka, Ind., Nov. 27.—By the premature discharge of a blast while blowing up stumps on his farm near here, Schuyler Groffoot, a prominent farmer of this county, was fatally hurt, the blast tearing off one hand, splitting his face and inflicting other injuries.

Petersburg, Ind., Nov. 27.—An eight-foot vein of coal, the deepest in the county, was found at Stedel, after a shaft had been sunk to a depth of 110 feet.
